

Advancing our Role and Approach to Supporting E-WASH Objectives

OBJECTIVES

1. PFD will help in strengthening funding capacity
2. PFD will assist in enhancing resource mobilization skills
3. PFD will help to improve capacity to engage

IMPLEMENTATION APPROACH

1. Advisory Committee
2. Working Group
3. Task Team

PROGRAM OVERVIEW

STATEMENT OF PURPOSE

The USAID Effective Water, Sanitation and Hygiene Services (E-WASH) Program aims to build the capacity of core partner civil society organizations (CSOs) that are receiving and managing grants from the Program in line with the USAID Forward initiative. Toward this, E-WASH is partnering with Partners for Development to build the capacity of E-WASH core partner CSOs in Abia, Delta, Imo, Niger, and Taraba states across six capacity areas (Objectives). Pfd will be responsible for delivering Objective 4: Improved resource mobilization skills

GOALS

- i. E-WASH targets an overall 75 percent net change in core partner CSO organizational and technical performance over the life of the E-WASH project.
- ii. Enhance the organizational and technical capacity of E-WASH core

partner CSOs to bolster their role in the areas of social accountability, monitoring, service provision, and sanitation and hygiene promotion.

- iii. Provide capacity building on COVID-19 Risk Communication and Social and Behavioral Change Communications to promote best hygiene behaviors in at-risk urban communities

PROPOSED ACTIVITY OBJECTIVES

- I. Deep Dive/Analysis
- II. Developing a competency-based learning system
- III. Fundamental Awareness
- IV. Intermediate – Practical Application
- V. Advanced (systems strengthening)

As part of the U.S. Government's (USG's) efforts to address gaps in urban WASH services in Nigeria, United State Agency for International Development (USAID) Nigeria will improve urban water service delivery by strengthening the governance and financial and technical viability of six State Water Boards (SWBs) in Nigeria.
